

Technical Report

May 19, 2021

This is the appendix of TSE paper “Pull Request Decision Explained: An Empirical Overall”.

1 Results for decision making in special cases

Table 1 presents the results of how factors influence pull request decision when there exists contributor’s comment or integrator’s comment.

Table 1: presents the results of special cases, including *contrib_comment=1* and *inte_comment=1*.

	Dependent variable: <i>merged_or_not=1</i>	
	<i>contrib_comment=1</i>	<i>inte_comment=1</i>
